

# Employee Theft Policy

DFW Oil and Energy, LLC and its subsidiaries (The Company) values all employees and their property, and expects that employees in turn value the company and its assets. The Company promotes an organizational environment and culture that requires honesty and ethical behavior and encourages the prevention of fraud and theft by raising awareness of the need for high standards of personal and professional conduct. Fraudulent and dishonest behaviors are NOT tolerated. It is The Company policy to promptly investigate any possibility of fraudulent or related dishonest activities against the Company and, when appropriate, to pursue legal remedies available under the law. The Company will tolerate no employee theft, or stealing of any kind, including fraudulent timecard reporting. That includes theft of money, information, products, inventory, tools or any item, information or idea that belongs to the company or to an employee, customer or business partner of the company.

As such, The Company expect all incidents of employee theft to be reported immediately to your supervisor or HR Manager, along with any data or information you have observed or obtained. We further retain the right to use video cameras and audio recording methods as well as software to identify and detect employee theft.

Employees at all levels are responsible for exercising due diligence and control to prevent, detect and report acts of fraud. Those who fail to carry out these responsibilities will be subject to disciplinary action up to and including termination of employment.

Any act of fraud, theft, illegal acts, or misconduct ascertained upon investigation, or pursuant to a criminal conviction, or through written acknowledgment by the employee(s) concerned, shall result in the appropriate disciplinary and legal actions against the employee(s) and/or entities, to include the possibility of termination of employment, restitution and/or forwarding information to the appropriate authorities for criminal prosecution. The repayment of losses will be sought in all cases and the Company will normally expect to recover all costs in addition to the recovery of losses.

Below are examples of types of theft to illustrate prohibited behaviors:

- Employees may not take money; customer credit card numbers or company checks without prior authorization and documentation.
- Employees may not take products without payment, such as inventory, including samples, or broken/returned items or any company equipment or supplies.
- Employees may not give away products or services without prior approval. This includes not giving freebies to friends and family, taking home samples without prior approval, or giving free repairs to anyone without documentation and payment.

Employees caught breaking any state or federal law, including employee theft of private or company property or falsifying timekeeping records will be terminated with no warning given.

In addition, a police report will be filed, as well as a potential lawsuit against the employee with a request for restitution of funds or products, inventory or assets. The company will deduct from the employees' final paycheck to cover the replacement cost of a shortage due to theft by employee.

To prevent employees from false accusations, The Company will investigate all claims of theft or employee stealing and discipline any employee for making a false accusation.

I understand that there are surveillance cameras throughout the location and will be used to corroborate the theft to police.
